

# Voice Sounds

## Home Learning Challenge

Use your voice to create some sound effects. Can you make a sound like a ticking clock or a doorbell? Listen to sounds that you can hear around your home. Can you make a sound just like them?

Teach a grown-up the song 'Old MacDonald Had a Farm'. What animals will be in your song? What noises do the animals make?

Play an animal-themed guessing game. Make some sound effects for different animal noises and ask someone to guess what animal sound you were making. You could 'miaow' like a cat, 'woof' like a dog or 'hiss' like a snake. What other animal sounds could you make?

Try making some different voice sounds to show different feelings and emotions. You could say 'oh!' if you are surprised, 'mmm' if something is yummy or 'shh' when you're trying to be quiet.
